Notification of Work Tracking

Date of Notification	Address

Minimum notification requirements for work in the Right of Way shall follow section 13.1 of the City of Tucson Public Utility Administrative Manual (Effective August 20th 2021)

You are required to provide proof of notification to those impacted by the work at the time of the preconstruction meeting. City Inspection Staff may have further requirements. These minimums are not to replace any standard notifications you currently have in place or more stringent notifications that are part of a permit condition.
